

# Matthew Williams II

(574 323-4627

mwilliamsii233203@gmail.com

## Skills

HTML, CSS, JavaScript, JQuery, Firebase, VS Code, Atom text editor

## Experience

September 2016 - PRESENT

### **South Bend Code School, South Bend, IN - *Participant***

- Learned basics of web development and create two web applications in ten weeks
- Presented web applications to Google tech professionals and the South Bend community while networking with them
- Continued coding in the South Bend Code School's alumni program, Code Legion

## Education

August 2014 - Present

### **Lasalle Intermediate Academy, South Bend- *Middle School, Average GPA: 3.75***

Developed a coding club that teaches participants the fundamentals of web development and exposes them to computer science.

## Projects

### **Michiality - *Transportation Project***

A web application that I coded with three other students to help visitors, tourists, and locals find local attractions based on a personality test.

### **South Bend Pollution Awareness - *Pollution Awareness Site***

A website designed to inform the people of South Bend and the Michiana area, about water pollution and littering in the area and around the St. Joseph River.

### **Landscaping Life Photography - *Photography/Portfolio Site***

A website that showcases my work done as a photographer.

### **M.W. Crochet - *Crochet/Portfolio Site***

A website that showcases my crochet work.

### **Center for the Homeless - *Community Project***

A website that automates the process for the Homeless Center workers by making it easier to keep track of who comes to the shelter, and figuring out if the applicant can get a bed.
